### Scope of work:

Banana Shire Council is looking to procure Float Switches for Clean Water / reservoir sites, Wastewater/Sewage plant/pumping station sites.

Float switch should operate / regulate the pumps start and stop operations based on liquid level and triggers an alarm (low level, high level, critical high level).

Single Float can have single level switch and/or several level switches for low, high and critical high positions with level alarm function.

Float switch outer casing should be resistant to most aggressive liquids, cable material should prevent build-up of deposits and other impurities. Float switch should last longer (operational life), ensure reliable operations and a low degree of maintenance over the life cycle. Float switch should be environmentally friendly (no harmful or toxic material such as lead or mercury or adhesives, components welded and screwed together properly). Liquid Temperature range from 0 to 60 degrees Celsius. Ingress protection: IP68. AC: 250 V/10 A.

Contractor should offer float with single level switch and/or several level switches with different length options such as 6m, 13m, 20m, 30m etc.

Council reserves the right to issue purchase order for all or specific parts of the above-mentioned work based on business needs.

Onsite electrical work will be out of scope. Council will arrange appropriate resources for electrical work as per requirements.
